

# Laptops for Little Ones

*a Laptop Collection Drive for Eastside Baby Corner*

EBC and Seattle's Friendly Earth are joining forces to host a laptop collection drive called Laptops for Little Ones. **Laptops for Little Ones will be held throughout the month of April**, during Earth Month, because reusing and recycling laptops keeps them out of the landfill and helps kids and the earth at the same time.

**Giving a child a laptop can mean the world to them and their family.**

Friendly Earth, whose mission is to keep electronics out of the landfill, will refurbish as many of the laptops as possible and recycle the rest. EBC will work with agency partners to give the refurbished laptops to local school children in need.

Laptops can be donated to EBC (1510 NW Maple St. Issaquah, WA).
